

LETTERING

Lesson of the DAY

Angular
Serifs
with
Triangles

I got this cabinet a long time ago and never really found a use for it so I'm happy that it now has a use as a lettering study for this course! The words 'HOME DYE' have unusual serifs: they are angular in shape. Note the little triangular detail in the middle of the 'H'. The letters are surrounded by a thin tannish-brown line. Today, draw 'HOME DYE'. Bonus: Using what you've learned, write the word BEWITCHED.
